

1doc⁺ Capsule Clinic

Bringing Accessible Healthcare
to Your Community

Welcome to the 1doc Capsule Clinic!

We are excited to introduce our innovative healthcare solution designed to bring accessible and comprehensive medical services to you, anywhere you are. With a focus on personalised care and integrated technology, the 1doc Capsule Clinic is the perfect healthcare partner for your company.

How can the Capsule Clinic benefit you?

Doctor Consultation & Teleconsultation

Our 24-hour automated dispensing, enabled by our Robot Pharmacy, ensures that essential medications, pharmaceuticals, and nutraceuticals are readily available to residents. This advanced dispensing system allows convenient access to vital medications when patients need them.

Nursing Station

Our dedicated nursing station offers a wide range of services, including home-based and centre-based care. From nursing services and physiotherapy to nutrition and medication counselling, our team of professionals is committed to enhancing the well-being of your community.

Pharmacy Services

The 1doc Capsule Clinic offers a range of medical services, including doctor consultations both in-person and through our teleconsultation service. Visitors can access expert medical advice and care conveniently.

**24-hour teleconsultation capabilities will be rolled out in the near future.*

Resident Vital Monitoring

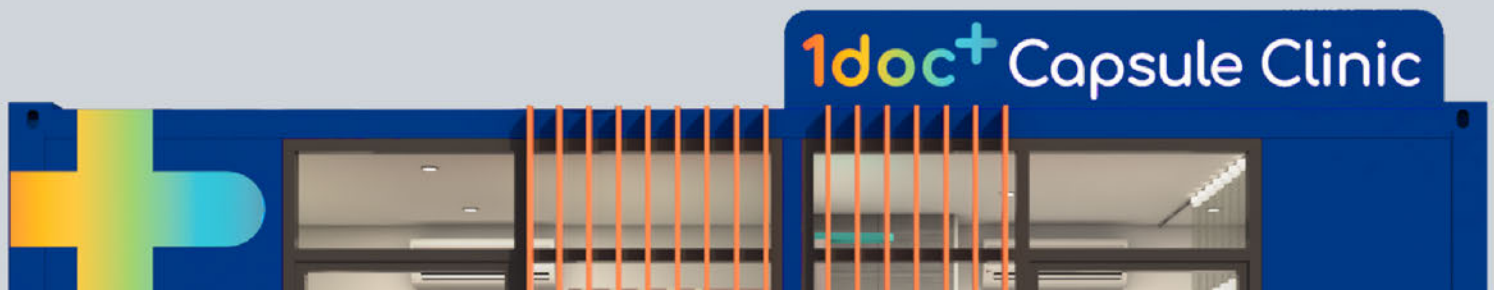

The 1doc Capsule Clinic is equipped to provide resident vital monitoring services, including first-aid response, fall detection, critical event detection, and medication compliance. Monitoring vital signs such as blood pressure, body composition, blood glucose, and dynamic ECG ensures early detection of potential health risks.

Comprehensive Health Screening for All Ages

At the 1doc Capsule Clinic, we offer comprehensive health screening services for all ages. Our health screening tests, including blood and urine collection and allergy testing, are designed to identify potential health risks and facilitate timely interventions. We prioritise early detection and preventive care to promote a healthier community.

A glimpse inside the 1doc Capsule Clinic features

The 1doc Capsule Clinic is a creative healthcare concept seamlessly powered by a single 32-amp plug, a robust Wi-Fi network supported by a SIM router or Ethernet connection and a waste water tank. Our 1doc Capsule Clinic is thoughtfully divided into two essential sections: The Medical Clinic Side and the 1doc Robot Pharmacy Side.

1doc Medical Clinic Side

On the Clinic Side, you'll find a comprehensive array of amenities, including a water basin with a tank, air conditioning for optimal comfort, a spacious full-sized bed, a dedicated teleconsultation PC for medical appointments, a portable ultrasound machine, and a desktop measurement kiosk with medical grade Omron devices to measure blood pressure, temperature, body composition, SP02 oxygen level and e-Stethoscope for vital readings. Additionally, there's a strategically placed television to display information, a table with two chairs for consultations, blinds to ensure patient privacy, and a CCTV system to maintain security.

1doc Robot Pharmacy Side

The 1doc Robot Pharmacy Side is equipped with one to two 2.1-metre 1doc EMDMs (Electronic Medicine Dispensing Machines), ensuring efficient medication dispensing. This section also boasts air conditioning and a CCTV system to safeguard pharmaceutical operations. Together, these features create a safe and comfortable healthcare environment designed towards patient care and pharmacy services.

Partner with Us for a Healthier Community

Bring the benefits of the 1doc Capsule Clinic to your neighbourhood or estate. Offer your residents accessible, personalised healthcare services that enhance the overall well-being of your community.

We are committed to providing accessible healthcare to everyone, regardless of their background. Together, we can make a difference.

Let's work together to create a healthier and happier community.
